## ABOUT YUGMA FABRICATORS

YUGMA FABRICATORS is a company founded by two technocrats with the objective of manufacturing “Special Purpose Trailer”. The project envisages the design, development, fabrication, manufacture and maintenance of technologically advanced high quality transportation systems in India for the first time. We at Yugma have built up complete infrastructure consisting of plant, machinery, equipment, as well as technical, trained and experienced manpower, and the vendor base is also fully developed. We have independence teams of trained personnel fully geared up for designed, development, production and services.

Our Fabrication Workshop is covered in 11700 Sq. feet and Machining Workshop is covered in 2950 Sq. feet.
